TOWERING ABOVE THE REST

Visit the Tower of the Americas with your students and enjoy the best view of the Alamo City while learning about Texas history. The tower, which stands 750 feet tall, was built in 1968 for the World's Fair celebrating San Antonio's 250th anniversary. It has been a favorite attraction for tourists and residents alike for nearly 40 years.

There are several options for student excursions to the Tower. Spend the whole morning or afternoon exploring, or just a couple of hours. It is guaranteed to be educational and fun for your class!

OBSERVATION DECK & TEXAS HISTORY MURALS

A visit to the Tower of the Americas wouldn't be complete without a stop at the Flags Over Texas Observation Level, which offers mesmerizing views of the city below. Photographs on the deck's floor pinpoint landmarks to help your students identify their surroundings, and historic photos provide wonderful discussion points to extend the learning experience.

Here, your students will also learn about the history of the six flags that once flew over Texas by viewing our captivating murals. Read about Mexico's attack at the Alamo, French explorer Louis St. Denis' mapping of the Camino Real Trail, Spain's domination of Texas for more than 300 years, and much more! History comes alive through these engaging visual presentations including maps, timelines, and information about major events, as well as interesting facts about the people of the time period – from leaders to missionaries to colonists. Get your students excited about Texas history with a visit to the Tower!

4-D THEATRE RIDE

The Skies Over Texas 4-D Theatre Ride will take your students on a high-flying trip across the Lone Star State. The ride will engulf them in scenes of life in Texas, where they can see, hear, feel and even smell the action! They will experience the culture and traditions of Texas citizens, explore the inner-workings of NASA, ride along with a cowboy and bull at the rodeo, and much more. The inspiring message throughout instills a feeling of Texas pride. Your students will have so much fun on the ride they won't even realize they are learning!
